Hello. Attached please find a pdf copy of EPA's response letter to the National Marine Fisheries Service, regarding complaints and concerns about the TWG process. Hard copies will be mailed to you as well.

(See attached file: Pebble Mine Project, Technical Working Groups.pdf)

Jean and I will be working together to convene a meeting of the State and federal regulators to discuss these concerns, with the objective of providing feedback to PLP about the process. This meeting will be scheduled sometime after New Years.

In the meantime, Merry Christmas and Happy New Year to you all.
